Need for Supply of Baby Food, Medicines, etc. to Iraq by Non-Government Organisations

SHRI SUKOMAL SEN (West Bengal): Mr. Vice-Chairman, Sir, I would like to raise a very urgent issue for the world and for the immediate consideration of the Government. Sir, the war in the Gulf has now stopped. Meanwhile inhuman devastation has taken place in Iraq because of the savagery and brutalities of the U.S. Government and their allies. Civilian population of uncounted number has been the victim of devastating, round-the-clock bombing and shelling on civilian and military targets. It is reported that many hospitals, schools, nurseries, baby food producing factories have been pounded.

Now, after the guns have stopped booming, it has become extremely urgent to provide relief to the war victims of Iraq. Most unfortunately because of the revengeful attitude of U.S. Government and their supporters the Security Council has still maintained the economic sanctions againsnt Iraq. This will further aggravate the plight of the war-ravaged Iraqi population. It is reported that the Government of India is sending some medicines and other relief materials to Iraq. Similarly, many non-Government organisations, students and youth organisations, etc., are also taking initiative to collect blood, medicines, baby foods, etc., for sending them to Iraq. But for that it is necessary that Government set up a suitable machinery to help those organisations so that they are able to send the relief materials to Iraq. Without Government assistance it is very difficult to send unofficial relief materials. I request the Government to act promptly in the matter. Thank you.

THE VICE-CHAIRMAN (SHRI M. A. BABY): I think the issue raised by the hon. Member is a very important issue. I think the Government will take note of it.

THE MINISTER OF STEEL AND MINES (SHRI ASHOKE KUMAR SEN): I have noted it and I will pass it on to the External Affairs Minister.
